## Experience

### Design Intern

Hiyllo Inc., August 2023 - Present

- Utilized UX Pin to create wireframes and prototypes to create a marketable workspace
- Collaborated with CDO to create a custom client website and adapted to design processes, including weekly design sprints
- Identified and resolved UX related issues through company feedback sessions, leading to additional design and software suggestions

### Dragon Venture

PROD 215, June 2023

- Recognized the persistent commuter challenges that 70% of students face at Drexel
- Developed user personas and conducted product design research as a 4 person group to create physical and mobile prototypes
- Presented to Drexel staff and received the opportunity to develop and implement the project at Drexel through an independent study.

### Phoenix Sunrise Stool

PROD 215, May 2023

- Showcased creativity and intentional design through connecting phoenixes, stools, and their connection to human communication.
- Designed an interconnected stool set with intricate diagrams and storyboards to help people optimize communication despite smaller living spaces.
